Income Taxes—No provision has been made for federal or state income taxes because 5 Gyres is exempt from such taxes under Section 501(c)(3) of the Internal Revenue Code and applicable state regulations. In addition, the Internal Revenue Service has determined that 5 Gyres is not a private foundation within the meaning of Section 509(a) of the Code. Accounting standards require an organization to evaluate its tax positions and provide for a liability for any positions that would not be

considered "more likely than not" to be upheld under a tax authority examination.

Part XIII | Supplemental Information (continued)

Part X - FASB ASC 740 Footnote (continued)

Management has evaluated its tax positions and has concluded that a provision for a tax liability is not necessary at September 30, 2020. Generally, 5 Gyres's information returns remain open for examination three (federal) and four (state) years from the date of filing.

Form 990, Part III, Line 1 - Organization Mission

The 5 Gyres Institute is a 501(c)(3) nonprofit organization based in Los Angeles, with a global network of supporters united in the pursuit of a planet free of plastic pollution. 5 Gyres mission is to empower action against the global health crisis of plastic pollution through science, education, and adventure. 5 Gyres North Star goal is to stop the flow of plastic pollution from source to sea by 2028.

Form 990, Part III, Line 4a - Program Service Accomplishments

Science

5 Gyres uses science-based information to provide solutions for plastic pollution. We have published over 12 articles in peer-reviewed scientific journals. In 2019, we released our BAN list 2.0 report, which addressed the Top 20 worst offenders of single-use plastic items across the US, and shed insights on a o biodegradability case study using bioplastics. We also launched our first city-wide TrashBlitz pilot project in May 2019 across 15 municipalities in Los Angeles. As a citizen-science led project, we developed methods and protocols based on the UN's Global protocols (GESAMP) as well as devised our own web-based application called the TrashBlitz App. During our pilot project in Los Angeles, we collected and analyzed over 100,000 items of trash to hand-deliver a report to the 15 stakeholders in each district. In collaboration with CIEL, we contributed to a comprehensive report to share our expertise on the issues of Plastics & Climate Change. Here we discussed the potential CO2 emissions derived from ocean plastic pollution.

local data to better understand the source of the problem in a direct, hands-on way. This data is then leveraged to promote plastic pollution solutions that are locally relevant.

Officially launched in Los Angeles, we created a movement and rallied over 25 local organizations to collect a robust, city-wide, trash audit data set. Using our new web-based application, over a three week period we collected and tracked over 100,000 items of trash in 110 sample sites across 15 municipal districts. We then hosted

a Solutions Summit to talk about next steps based on data collected, giving participants a different way to stay engaged and be a part of the solution.

Education

TRASH ACADEMY & LA ACADEMIA DE BASURA SEASON 1

In response to COVID-19, we launched Trash Academy and La Academia deBasura utilizing our NGSS-correlated curriculum to create short, actionable lessons that families could enjoy together. By presenting in both Spanish and English, we are better able to provide cultural relevance to the plastic pollution issue as it relates to the environmental justice and local frontline communities impacted by plastic pollution. We also use 5 Gyres research in these lessons to increase public knowledge of the social, economic, and ecological harm caused by the toxicity of plastics as well as promote scientifically-informed solutions to the interconnected challenges we face in the plastic pollution crisis.

BROAD FOUNDATION

Over 10 weeks in the fall of 2020, 5 Gyres taught and recorded 50 live classes of environmental science courses to 150 students and their families. These courses integrated education, advocacy, and community science with the 5 Gyres curriculum into a multi-phased educational platform that served the needs of K-5 students and their communities during the pandemic.

Form 990, Part III, Line 4d - Other Program Services Description

Policy

We worked with CA legislators and supporters to help pass a statewide comprehensive ordinance bill (specifically SB 54 and AB 1080). Although it was not approved on the Senate floor in fall 2019, our organization continued to advance policy efforts at the city-wide level. Together with nearly 12 organizations in the Los Angeles region, we launched the Reusable LA Coalition to promote and advance the need for a comprehensive ordinance bill against single-use plastics that would better support the adoption of a reusable item.

Reusable LA

The Reusable LA coalition is a group of 26+ nonprofit organizations and community groups which worked together to effectively cultivate a large network of stakeholders to strengthen partnerships within the community and ensure equitable representation that incorporates the priorities of environmental justice groups as we drive change by promoting reusable policies in our community. The Reusable LA

coalition has consistently demonstrated the ability to mobilize local non-profit organizations, neighborhoods, businesses, community leaders and elected officials to rally around the importance of reducing plastic waste through upstream policy initiatives organized and supported at the grassroots community and neighborhood level. In March 2020, the landscape of

policymaking and how both city and state governments operated shifted drastically in response to

the pandemic. As a coalition, we had to pivot our operations and maneuver in a different direction

to defend the safety reusables and promote their continued usage while the plastics industry invested

incredible efforts in the spread of disinformation to encourage the increased consumption of singleuse

plastics. Over the past seven months we have continued to gain support from broad coalition

partners including environmental justice groups. We are working diligently to strengthen our

partnerships together and promote policy changes that will reduce the consumption of single-use

plastics and create a mandatory opt-in policy for all single-use plastic foodware accessories. The

work we have done this year will lead to policy changes in both the city and county of Los Angeles

on both small and broad scales because when it comes to enacting the most progressive legislation

that promotes more stringent sustainability standards, California policies tend to

Ambassadors

The Ambassador program is a network of like-minded individuals who want to take action against plastic pollution. Ambassadors are key volunteers with the most recent and relevant resources on plastic pollution research, policies, and solutions. We provide the tools to help you become leaders. Last year, we celebrated our 1,000th Ambassador joining the program. We also featured over 100 Ambassadors Takeover Stories on our Instagram page to help share their stories and connect everyone to our global online community which averages 1.3M unique monthly views. We now continue to grow the online global community beyond 1,500 individuals from 67 countries and 46 US States.

Leap Lab

As we enter a new world in which climate change is a reality, we need a population that is engaged and literate about environmental science, and has access to the information, program and economic opportunities we need to drive local solutions. Leap Lab is dedicated to building community spaces to engage people with tools, science, and resources to drive local change. Leap Lab spaces will feature hands-on exhibits on science and sustainability, demonstration sites, a working organic garden/greenhouse, a community kitchen, a maker space/lab where people can cocreate, and an action hub profiling local, grassroots campaigns that people can engage in
